

About us

As a result of the constant update of the Sanitary Regulation in Mexico, we are a specialized consultancy in Regulatory Affairs that offers customized, full and digital advice for companies marketing health products.

Do you know the sanitary classification of your product?

Do you want to sell drugs or medical devices in Mexico?

Do you need a Sanitary Register or an Importation Permit?

You should use a traditional or an Equivalence pathway?

Let us guide you

Let us do what we do best:
